

# CapitalBank

September 22, 2008

To Whom It May Concern:

CapitalBank has been a business partner with AaSys for over one year.

CapitalBank utilizes AaSys for the outsourcing of our IT Services and Network Monitoring. AaSys has provided many services to CapitalBank including a Network Assessment, GLB Risk Assessment and numerous additional IT services.

I have personally managed this relationship and can attest to the quality of service that AaSys delivers and provides. Their staff is professional and very knowledgeable.

Based on our experiences with AaSys we highly recommend their company as valued business partner in the IT arena.

Sincerely,

Cindy Pugh-Pruitt  
Director of Operations - SVP
